RE: Authorization to Proceed with Compressor Station Construction and Use of
Associated Access Roads

Dear Mr. Allen:

In accordance with the environmental conditions of the Commission's April 7, 2010 *Order Issuing Certificate* (Order), I approve ETC Tiger Pipeline, LLC's (ETC Tiger) April 9, 2010 request to proceed with construction of the following compressor stations for the ETC Tiger Pipeline Project:

- Carthage Compressor Station;
- Cannisnia Compressor Station;
- Bienville Compressor Station; and
- Chatham Compressor Station.

This authorization includes the use, modification, and construction of the previously identified access roads associated with the compressor stations as shown on the compressor station plot plans filed on April 9, 2010.

In considering this notice to proceed, we have determined that ETC Tiger's Implementation Plan (filed on April 9, 2010) included the information necessary to meet the compressor station preconstruction condition Nos. 1 through 10, 14, 17, 18, 21 through 23, and 27 of the Commission's Order in the above-referenced docket. In addition, we have confirmed receipt of all federal authorizations relevant to the approved activities herein. We understand that ETC Tiger will continue to consult with the U.S. Fish and Wildlife Service to address their concerns on the Migratory Bird Conservation Plan.

Please note that this authorization does not allow use of areas or access roads other than those specified above. I remind you that ETC Tiger must comply with all applicable remaining terms and conditions of above-referenced Order, as well as procedures stipulated in your previous filings. If you have any questions regarding this approval, please contact John Wisniewski at (202) 502-8052.

Sincerely,

Alisa M. Lykens
Chief, Gas Branch 2
Division of Gas – Environment and
Engineering
