

## Tiger Pipeline Project

*ETC Tiger is committed to the protection of the environment in areas where we operate and will work to minimize the impact of our construction and operations on natural resources. ETC Tiger will:*

- ➔ Conduct biological and archeological field surveys and evaluations by environmental professionals
- ➔ Acquire federal, state, and local permits and comply with all permit conditions
- ➔ Protect wetlands, waterbodies and sensitive resources
- ➔ Restore the land to equal or better condition
